QCS has taken an initiative to implement reading program for kids aimed at fostering joy of reading among students.

- Its objective is to introduce students to the joy of reading and enhance their literacy skills.
- Stories and reading are important part of child's groom and development. Reading encourages to build vocabulary, desire connection between stories and their own lives.
- It helps them to think more, be able to express themselves more freely and become independent learner.
- Libraries are the best resource center of any academic institution and librarian act as a catalyst in lifelong journey of reading and in developing reading culture and habits in students.

- All students from grade 3 onwards are open to read the book of their choice and they are encouraged to issue at least one book from the library for 14 days and can even get them renewed.
- On the basis of the experience of collecting, curating and disseminating information for years, who could be better than a library teacher to direct students to the information of their age. On the basis of the same students are guided one book in one quarter, of Librarian's choice.

Along with this different activity for students have been planned as:
