Subject: Establishing the School's Cyber Security Club in Association with Local Police Authorities

Dear Parents

Greetings!

We are pleased to announce a new initiative at our school—the formation of a Cyber Security Club, in collaboration with our local police authorities. This program is designed to bring awareness about the critical issues of fake news and the importance of adhering to cyber security protocols.

Objectives of the Cyber Security Club:

- Equip students with knowledge about identifying and addressing fake news and sensible use of social media.
- Educate students on essential cyber security protocols to ensure safe online practices.
- Foster a sense of social responsibility and create conscious digital citizens.

We are proud to inform you that your ward has been selected as a Digital Warrior of the school. This prestigious role will empower the representatives to become a responsible and socially aware digital citizen. As a Digital Warrior, they will:

1. **Participate in Specialized Training:** Your ward will receive expert guidance through workshops and seminars conducted by cybersecurity professionals.
2. **Gain Awareness of Current Challenges:** They will learn to identify and counteract fake news and cyber threats, equipping them to be vigilant and responsible in the digital world.
3. **Promote Social Awareness:** As Digital Warriors, they will act as ambassadors of cyber safety within the school and their communities, fostering a culture of digital responsibility.

This initiative is a step towards nurturing informed, aware, and socially responsible individuals who can contribute positively to society. We look forward to your support and encouragement as we embark on this meaningful journey together towards, creating a safe and aware digital ecosystem.

Parents are requested to give their consent by filling the consent form attached along:

Warm regards,
