

Date: 23rd April 2026

Circular No: QCS/2026/227

Subject: Introduction of CT/AI and Kaushal Bodh from Session 2026–27

Dear Parents,

Greetings from the school.

In alignment with the vision of the Central Board of Secondary Education and the recommendations of the National Education Policy 2020, we are pleased to apprise you of the introduction of two new subjects—**Computational Thinking & Artificial Intelligence (CT/AI) and Kaushal Bodh (Skill Education)**—from the academic session 2026–27.

These subjects have been thoughtfully incorporated to nurture essential 21st-century competencies, including critical thinking, creativity, problem-solving, and practical life skills, thereby preparing learners for an evolving global landscape.

About the Subjects:

1. Computational Thinking & Artificial Intelligence (CT/AI):

This subject will develop foundational skills in logical reasoning, computational processes, and basic understanding of artificial intelligence applications, fostering digital literacy and analytical thinking.. The curriculum is meaningfully aligned with Mathematics and Computer Studies, with a strong emphasis on competency-based learning and higher-order thinking skills.

2. Kaushal Bodh (Skill Education):

Kaushal Bodh aims to provide structured exposure to vocational skills through experiential and hands-on learning. It promotes creativity, self-reliance, and informed career awareness. As part of the curriculum, students will undertake three guided projects annually, fostering practical understanding and application of skills.

Implementation Framework:

- These subjects will be integrated into the regular timetable as dedicated instructional periods.
- The pedagogical approach will be experiential and activity-oriented, incorporating projects, real-life applications, and collaborative learning experiences.

We are confident that this initiative will equipping our students not only for academic excellence but also for meaningful engagement with real-world challenges. For any further clarification, please feel free to reach out

Warm regards,

Ms. Sandhya Kumaria
